

## Deutsche Bank AG is a new issuer on Swiss DOTS

Swissquote Bank Ltd is continuing to expand its offer on the over-the-counter trading platform Swiss DOTS, now adding Deutsche Bank AG as a new issuer. Around 10,000 leveraged products are furthermore issued in the medium term. This is on top of the existing product ranges provided by the two founding partners, UBS and Goldman Sachs, as well as by Commerzbank Ltd, who joined approximately one year ago. The continuous growth of the market share and the number of transactions confirms the success of the business model.

Swiss DOTS, the over-the-counter trading platform launched in May 2012 in cooperation with UBS and Goldman Sachs, is getting reinforcements. As of now, Deutsche Bank AG is already the fourth provider to issue its leveraged products via the platform. For many years, Deutsche Bank AG has been a leading provider for Certificates in Germany and is now also giving Swiss DOTS the benefit of the expertise it has acquired in this area. This straightforward online investment service currently already enables clients to trade over the counter in over 40,000 leveraged products, such as warrants, knock-out warrants, factor certificates and mini-futures. The products, which are available exclusively via the Swissquote platform, can be traded directly with their issuers during extended trading times, from Monday to Friday between 8.00 a.m. and 10.00 p.m. With low fees, transparent trading and narrow spreads, Swiss DOTS is an ideal complement to the existing range of products on the SIX Structured Products Exchange (SSPE).

“We are delighted to be gaining an established and successful partner in the derivatives market by having Deutsche Bank on board. The steadily growing volume of transactions is confirmation that Swiss DOTS is an attractive proposition for our clients”, stated Marc Bürki, the CEO of Swissquote Bank Ltd. Stefan Armbruster, Head of Warrants & Certificates, AWM Passive at Deutsche Bank AG, added: “As a long-standing partner of Swissquote Bank, joining Swiss DOTS was the next logical step. This enables us to make a wider range of leveraged products with narrow spreads available to customers.”

Swiss DOTS is growing steadily. On average, some 15,000 transactions are carried out each month via the platform. Its market share, measured in terms of all leveraged securities transactions at the SSPE, was around 30 percent as of the end of June 2015.
