## Swissquote opens Paris office

The Swissquote Group, headquartered in Gland (VD), Switzerland, has opened a branch office in Paris. The new location will be a base from which to launch the group's internet-based financial services in the French market. The focus will be on developing the financial portal [www.swissquote.fr](http://www.swissquote.fr) and the web services of the subsidiary Marvel Communications Ltd.

Swissquote anticipates that the proximity of France's largest financial center and hence of major customers will result in a significant expansion of its business. The new Paris office has five employees to start with.
